

Profile Summary

I am a highly motivated and skilled Angular and ASP .NET developer with 2 years of professional experience in the software development industry. My passion for creating robust and efficient web applications has driven me to continuously enhance my skills and stay up to date with the latest technologies in the field.

Work Experience

Rheal Software Pvt Ltd, Pune.

Designation: Junior Software Developer

Duration: Feb 2022 - Present

Responsibilities

- Developed and maintained web applications using Angular, ASP .NET and MSSQL, delivering responsive and user-friendly interfaces.
- Implemented RESTful APIs, authentication mechanisms, and data validation to enhance security and performance.
- Understand requirements and transforms them into functional applications in line with business objectives.
- Maintain and upgrade existing applications and fix issues.
- Periodic Analysis, Testing and Debugging of applications.
- Rewriting/making changes in existing code structure to increase efficiency and performance.

Technical expertise

Front End	Angular CLI, TypeScript, jQuery, HTML5/CSS3, Bootstrap
Back End	C#, ASP .NET MVC Web API, LINQ
Database	MS SQL
Tools	MS Visual Studio, VS Code, Postman, Git
Deployment	Internet Information Services (IIS)

Projects

Virtgate (ThinkPort Portal)

- Spearheaded the development and maintenance of a dynamic and multifaceted project, Virtgate (ThinkPort Portal), which encompassed 30 individual Customers (with different website) of our client.
- Demonstrated proficiency in full-stack development by seamlessly managing both front-end and back-end components of the project.
- Collaborated closely with clients to understand their unique requirements and tailor-made solutions that met their specific needs.
- Leveraged extensive database knowledge to design and write stored procedures, ensuring efficient data retrieval and manipulation.
- Developed RESTful API methods to facilitate seamless data communication between the front-end and back-end systems, promoting data integrity and security.
- Effectively collaborated within an Agile development environment, participating in sprint planning, daily stand-ups, and retrospectives to ensure project milestones were met.
- Technologies – **Angular, ASP.Net Web API, MSSQL.**

VirtTicket

- Led the development of the VirtTicket project, a comprehensive solution designed to efficiently manage and track customer queries and interactions for our clients.
 - Implemented a client-centric approach, customizing VirtTicket to align with each client's unique requirements and providing a seamless interface for managing customer inquiries.
 - Technologies – **ASP.Net MVC, jQuery, MSSQL.**
-

Education

Master of Computer Application (MCA)

Indira College of Engineering and Management, Pune. (University of Pune)

Year: 2020 – 2022

CGPA: 8.71

BSc Computer Science

SMBST College, Sangamner (University of Pune)

Year: 2017 – 2020

CGPA: 7.32

Other Project

E Maha Seva Kendra Record Book [GitHub](#)

- In response to my client's specific requirements, we have developed a comprehensive desktop application tailored to the unique needs of Setu, Aadhar Kendra, and other services. This project addresses the critical need for efficient record management and invoicing capabilities, allowing users to seamlessly perform essential operations like adding records, updating records, and generating invoices for clients using a printing machine.
 - Users can effortlessly add, update, and retrieve records for daily operations. This includes capturing vital information such as customer details, services provided, and relevant dates.
 - One of the standout features of this system is its ability to generate invoices for clients. Users can quickly create and print professional invoices using a connected printing machine, streamlining the billing process.
 - Technologies – **JAVA, MYSQL.**
-

Personal Details

Full Name: Kanawade Mangesh Bhausaheb.

Gender: Male

DOB: 08 June 1999

Address: At/Post Nimgaon BK, Sangamner, Ahmednagar, Maharashtra 422603.
